

\$2,499.00

The 15-inch model has over 5 million pixels, and the 13-inch model has over 4 million. So you can retouch your photos or edit a home movie in HD and experience an astounding level of clarity. Text is razor sharp, too, so even everyday things like browsing the web and revising a document are better than ever. It's a display worthy of the world's most advanced high-performance notebook.
